Dear Cllr Simons & the Members of Darsham Parish Council,

Thank you for your letter about Sizewell C and for your warm words congratulating Dr Coffey on her appointment as Secretary of State for Environment, Food and Rural Affairs.

Last week, Dr Coffey released a statement to her constituents on the most recent developments concerning the Sizewell C nuclear project. I italicise this statement below, which can be found, together with Dr Coffey's other views on Sizewell C, on her website.

*It's unclear where today's press story suggesting that the government is reviewing Sizewell C has come from. I know how important this matter is to constituents though, so, I have written to both the Chancellor and the Secretary of State for Business, Energy & Industrial Strategy to get urgent clarity on the matter.*

*Whilst Sizewell C already has planning consent, I continue to express my concern to Ministers about the cumulative impact energy infrastructure will have on our coast if every proposed project is granted permission.*

These will update the website with more information accordingly, including with the most up-to-date news about Sizewell C. Please visit Dr Coffey's website here:
